

UNRWA has announced stopping its humanitarian aid operations by February due to the suspension of funds... **What does this actually mean?**

5.9 million refugees

will be deprived of receiving UNRWA services, including 1.7 million in the Gaza Strip

3.7 million refugees

will be deprived of receiving life-saving emergency aid, including 2 million in the Gaza Strip

140 health centres

providing primary care will stop working, 22 of which are in the Gaza Strip

30,000 people

will become unemployed, including approximately 13,000 in the Gaza Strip

702 primary schools

will be closed, including 278 in the Gaza Strip

543,000 students

will be deprived of education, including more than 278,000 in the Gaza Strip

Suspending UNRWA's funds means participating in the genocidal war on the Gaza Strip and liquidating the Palestinian refugee issue

**Funding UNRWA is an international responsibility, not a reward...
NO to using aid for political blackmail!**

UNRWA and its services are our Right until Return
