

How are these states abetting and aiding the Israeli genocidal war on the Gaza Strip?

By suspending their funds to UNRWA, these States are

- **Ignoring** their international obligation to prevent genocide
- **Participating** in Israel's genocidal war
- **Committing** the crime of collective punishment
- **Defying** the order by the ICJ to allow effective humanitarian assistance to reach Palestinians
- **Attempting** to liquidate UNRWA and, with it, the Palestinian refugees issue

Willfully impeding relief supplies as part of the use of starvation of civilians as a method of warfare constitutes a war crime
