

Since the start of **ISRAEL'S GENOCIDE,**

In the West Bank and Jerusalem:

 **1193+**

Palestinian properties were demolished including **480+** inhabited homes

 **359**

demolition orders issued, with **318** Palestinian properties demolished in the first half of 2024

 **23,700**

dunams have been confiscated as "**state lands**" as of January 2024

In 1948 Palestine:

 **65**

Palestinian properties were demolished in 1948 Palestine, dozens are facing the threat of demolition, including **60** homes in Umm Al Fahim

The escalation of the policies and practices of Israel's colonial-apartheid regime are evident in:

Increasing demolition orders under the pretext of lacking building permits

Exploiting the perpetual Israeli "state of emergency" status to confiscate Palestinians lands
